

City Sign

Designed for use on low-speed roads under 50mph

The unique compact design of the City Variable Message Sign (VMS) makes it ideal for projects where space is a premium, such as urban centres, events and advertising.

The sign can accommodate up to 8 lines of text, 20 characters across. The City VMS is most popular with traffic management companies and local authorities who utilise this compact sign for streetworks projects.

Features

Tilt and rotate solar panels for optimal performance and continuous annual operation

Footprint only 1.4m x 1.6m with retractable towbar

Unparalleled **battery life**

Instant remote programming via PC, laptop, tablet or smartphone

Stealth Technology as standard: protection against battery theft and reduced maintenance requirements

GPS modem for asset mapping

About MobileVMS

Established in 2009, Mobile VMS provides digitally integrated traffic monitoring, control, and information solutions across the UK road network.

We're best known for our industry-leading VMS fleet but we're more than that. We deliver smart, energy-efficient solutions that help our clients manage traffic, improve safety, and communicate clearly with road users.

AT THE HEART OF EVERYTHING WE DO ARE FOUR GUIDING PILLARS:

CUSTOMER

INNOVATION

COLLABORATION

SUSTAINABILITY
