

Full Colour Sign

Variable Message Sign (VMS) suitable for all major road networks

The Mobile VMS Full Colour Sign with rainbow technology is the industry's first full colour solar variable message sign.

The eye-catching display makes it especially suitable for events or advertising campaigns, as well as roadwork environments where the sign's range of symbols comes into its own.

Features

Over 16,000 colours that can be displayed in a message or graphic design

Tilt and rotate solar panels for optimal performance and continuous annual operation

GPS modem for asset mapping

Instant remote programming via PC, laptop, tablet or smartphone

Stealth Technology as standard: protection against battery theft and reduced maintenance requirements

Unparalleled **battery life**

Full matrix display

Password protected and network secure

2 year warranty on all electronics

Environmentally friendly and energy efficient

Display panel: 267cm x 168cm

Easy to deploy

Applications: transport | security | rail | manufacturing | construction sites | events

Technical specifications

Specifications	
Dimensions	3820 x 2040mm
Display Panel	2670 x 1680mm
Panel Construction	Aluminium
Travelling Height	2740mm
Operating Height	4705mm
Weight	975kg
Axle/Suspension	Single, 1588kg
Display Lift	Electro-Hydraulic
Paint	Weatherproof Powder Coating
Solar Power	• Various configurations of solar panels and batteries available • High efficiency single crystal silicon anti-reflection coating for improved efficiency • Regulated with surcharge protection

Options

- | | | |
|--------------------------|---|--|
| → Touchscreen controller |  | → Integration with weather and Journey Time system |
| → Static CCTV camera |  | → Automated queue detection system |
| → Radar and data logging |  | → Journey Time system |

About MobileVMS

Established in 2009, Mobile VMS provides digitally integrated traffic monitoring, control, and information solutions across the UK road network.

We're best known for our industry-leading VMS fleet but we're more than that. We deliver smart, energy-efficient solutions that help our clients manage traffic, improve safety, and communicate clearly with road users.

AT THE HEART OF EVERYTHING WE DO ARE FOUR GUIDING PILLARS:

CUSTOMER

INNOVATION

COLLABORATION

SUSTAINABILITY
