

Solar Lighting Tower

Our innovative Solar Lighting Tower is visually as bright, effective and compact as conventional diesel light towers, efficiently utilising solar energy thanks to our exclusive 'Nightbrite Technology'. Environmentally friendly, maintenance free and with no running costs, the Solar Lighting Tower provides the green credentials the industry is striving for.

Features

4 LED lamps with 'Nightbrite Technology'

Intelligent controller
Schedule and control your lighting event

+ Low cost of ownership

Clear and bright LED lamps

Power platform
Provides autonomy for weeks

+ Environmentally-friendly, no emissions or engine noise

Compact design

Multi-orientation
Maximise the performance
